HIPPOCRATIC OATH

I swear by Apollo Physician and Asclepios and Hygeia and Panacea and all the gods and goddesses, that I will fulfill according to my ability and judgement this oath and covenant.

To hold him who has taught me this art equal to my parents and to live my life in partnership with him, and if he is in need of money to give him a share of mine, and to regard his offspring as equal to my brothers in male lineage and to teach them this art - if they desire to learn it - without fee and covenant; to give a share of precepts and oral instruction and all the other learning to my sons and the sons of him who has instructed me and to pupils who have signed the covenant and have taken an oath according to the medical law, but to no one else.

I will apply dietetic measures for the benefit of the sick according to my ability and judgement; I will keep them from harm and injustice.

I will neither give a deadly drug to anybody if asked for it, nor will I make a suggestion to this effect. Similarly, I will not give to a woman an abortive remedy. In purity and holiness I will guard my life and my art.

I will not use the knife, not even on sufferers of the stone, but will withdraw in favor of such men as are engaged in this work.

Whatever houses I may visit, I will come for the benefit of the sick, remaining free of all intentional injustice, of all mischief, and in particular of sexual relations with both female and male persons, be they free or slaves.

What I see or hear in the course of treatment or even outside the treatment in regard to the life of men, which on no account one must spread abroad, I will keep to myself, holding such things shameful to be spoken about.

If I fulfill this oath and do not violate it, may it be granted to me to enjoy life and art, being honored with fame among men for all time to come; if I transgress it and swear falsely, may the opposite of all this be my lot.

OSTEOPATHIC OATH

I do hereby affirm my loyalty to the profession I am about to enter.

I will be faithful always of my great responsibility to preserve the health and the life of my patients, to retain their confidence and respect both as a physician and a friend who shall guard their secrets with scrupulous honor and fidelity, to perform faithfully my professional duties, to employ only those methods of treatment consistent with good judgement and with my skill and ability, keeping in mind always nature's laws and the body's inherent capacity for recovery.

I will be ever vigilant in aiding in the general welfare of the community, sustaining its laws and institutions, not engaging in those practices which will in any way bring shame or discredit upon myself or my profession. I will give no drugs for deadly purposes to any person, though it be asked of me.

I will endeavor to work in accord with my colleagues in a spirit of progressive cooperation, and never by word or by act cast imputations upon them of their rightful practices.

I will look with respect and esteem upon all those who have taught me my art. To my college I will be loyal and strive always for its best interests and for the interests of the students who will come after me. I will be ever alert to further application of basic biologic truths to the healing art and to develop the principles of osteopathy which were first enunciated by Andrew Taylor Still.

Dear Colleagues:

Congratulations upon receiving your doctor of osteopathy degree as part of Philadelphia College of Osteopathic Medicine's 102nd class. After completing a demanding educational program, you are well prepared to begin your new career.

As an osteopathic physician, you will have the opportunity to meet many of the challenges being posed to providers in our nation's health care delivery system. I believe your training, supported by its osteopathic philosophy, will help you to meet these challenges and to contribute to the demands of the nation to control health care costs while maintaining a consistent level of care.

No matter what career path you choose, the College remains supportive and willing to assist you in achieving your goals. I welcome hearing from you at any time if your College can be of help to you.

The trustees, faculty, staff and the thousands of PCOM alumni/ae join me in congratulating you on your achievements and wishing you much success and happiness in your new profession.

Fraternally,

Leonard H. Finkelstein, D.O.,
M.Sc., F.A.C.O.S.
President

Dear Colleagues:

Congratulations to your class, the Class of 1993, as you receive your Doctor of Osteopathy degree. As I am sure you will agree, you have completed a demanding and rigorous four years of osteopathic medical education. You have been prepared to serve well your fellow man.

You will face great challenges in the future as the field of medicine changes technologically as well as by governmental agencies in their attempts to assure medical care to everyone in the nation. You are ready to meet these challenges!

Please remember your Alma Mater with fond regards and nurture the interpersonal relationships you developed with fellow classmates while attending Philadelphia College of Osteopathic Medicine. I hope that both will serve you well in whatever field of endeavor you may choose.

Best wishes to you as you now pursue your career in osteopathic medicine. May you be blessed with good health, happiness and a sense of well being.

Sincerely,

Kenneth J. Weit, D.O.

PHILADELPHIA
VISITORS CENTER

Congratulations! Class of 1993 and even though I have not been active in this past year of your academic program, I feel very close to you because of the previous three years. Those three years were marked by considerable concern on your part and it was my pleasure, as well as privilege, to have been associated with you as you pursued your career in osteopathic medicine.

Yes, time does make us forget some of the stresses that were placed upon you, but I am sure that you realize that most of this was a very integral part of your learning process. The many hours of studying Anatomy, Cardiology, Pulmonology, and Surgery do not seem quite as significant as they did at that time. I hope that now, as you enter into your clinical studies, we may have contributed to the basic learning that will make your osteopathic practice of the future very enjoyable.

Remember what I said, "What an ill patient wants is a physician that will talk to them, a physician that will listen, and a physician that will touch them". I think that you are prepared to do this and thereby do your part to alleviate the human suffering that exists today.

To a class that has given me great inspiration and an opportunity to interface with the young physicians of the future, I give you my thanks, my best wishes and you are in my prayers.

Sincerely,

Daniel L. Wisely, D.O.

STANDARD SCORES. The top row of scores is reported on a scale which may range from 0 to 900. The score that has an average of 500 for the criterion group of examinees. This criterion group is made up of examinees who have taken Part I in the past.

PERCENTILE SCORES. The second row of scores reports the percentage of reference group examinees with raw scores on the current Part I who were lower than yours. This reference group is made up of examinees who were taking Part I for the first time.

MINIMUM PASSING SCORE. Passing Part I is based solely upon achieving a total standard score of 400 or higher. The total score is derived from the number of questions answered correctly on the entire examination and not by examining area subject scores. No minimum passing score is established for individual subject scores. The examiner reviews area of relative weakness and strength based on individual subject scores. Those examinees who fail to obtain a passing score will receive a diagnostic report showing their individual subject scores below 500. Scores shown in the individual subjects represent areas of particular strength. The examiner scores obtained in the individual subjects represent areas of particular strength. The examiner scores obtained in the individual subjects while scores above 500 represent areas of relative weakness and take the test again must repeat the entire examination regardless of the

The most common reason for an erroneous neurologic assessment is:

A. Failure to obtain an accurate and detailed history
B. Failure to devote enough time to the physical exam
C. A poor quality CT scan
D. A reflex hammer with insufficient weight
E. Failure to check for the Babinski sign

HEALTH: The growing epidemic of skin cancer

As millions of Americans bake on the beaches this summer, many are still blissfully unaware that solar ultraviolet rays can cause something far worse than sunburn. In 1990 some 600,000 new cases of skin cancer will be diagnosed, most of them caused by exposure to the sun, and 8,800 will die. The light skinned and fair haired are the most vulnerable, but wearing sunscreens, hats and protective clothing can lessen the risk, especially during childhood and teenage years.

The Dream is fulfilled, a major milestone has been reached, and there are several very special people in my life who helped me on my journey.

To my wonderful parents: I want to thank you for giving me the guidance and support to become the man I am today. Your strength, understanding, encouragement and wisdom have been immeasurable. From the depths of my soul, I thank you. When I was high on life, you shared my joy and, more importantly, when I fell to the ground, you picked me up, dusted me off and sent me in the right direction.

To Kelly, my loving wife and best friend: You have changed my life in more ways than you will ever imagine. Because of you I have become a more compassionate, caring and loving person. For this I thank you. You gave me strength when I was weak, you wiped my tears when I was sad, and you gave me Love when I needed it most. Forever is a long time and I am looking forward to forever.

Mom and Dad- Without your love and support, I would have never made it. I love you both very much.
Andy and Erin- You've both always been there for me, not only as brother and sister-in-law, but also as best friends.
Tracy and Art- Thank you for putting up with me and always helping me out in times of need.
Rachel- You always have a smile for me. I hope our closeness can continue to grow.
Bub Rose- Your wisdom of life is something that I will always treasure.
Bub Pauline- I won't ever forget you.

For a long time I thought about how I was going to summarize four years on one page. Most importantly, how I could possibly thank all of the people who showed me so much love and support — some who stayed and some who did not

Robert Frost wrote,

"Two roads diverged in a wood, and I,
I took the one less travelled by,
And that has made all the difference."

To all of those who have helped me during these past four years, thank you for showing me this road — for walking with me when you could, for leaning on me when you needed to and for carrying me when I felt that I could not go on. Even if only for a short time, you have made all the difference . . . .

Live, laugh, love and stay well,
Gary

In loving memory of my mother and brother Paul . . .

I was blessed with a beautiful, loving and courageous mother. **Ma,** by observing your strength and faith in God, I learned that any obstacle was surmountable. You were and always will be my guiding force, and I know you are with me each day of my life. **My dear Paul,** I miss you more each day. I will carry part of your spirit and love for life with me forever. I love you both with all my heart.

Ed, how can I ever thank you enough . . . You gave me strength and courage when I had little. Your love, words of encouragement and sense of humor have carried me to this day. I look forward to our life-long partnership. I love you!

My friends-near and far-"Your friend is your needs answered . . ." Thanks for the love and support you have given me through the difficult times. I will never forget your kind words and caring calls. Philly friends, thanks for teaching me that there is a 26th letter in the alphabet . . rrr. Best of luck to all!

To Mom - Through all these years, you have sacrificed yourself, time, and energies for me. Thank-you for all of your love, support, and encouragement. I love you!
To Theresa - You taught me to live, love, and learn. You are the love of my life, and I am honored to become your husband. I love you with all of my heart and soul!
It is easy to be enthusiastic at the beginning and rejoice at the end, but I never would have made it through the middle without the love and dedication of my loved ones.
To Dad Azizkhan - You are the father I always dreamed of as a child, yet it took years to find you, it was well worth the wait. You are a wonderful father, surgeon, and friend.
To Mom Azizkhan - Thank-you for always being reassuring, even when I traveled on difficult roads. I love you!

Where are you going? Where are you going?
Can you take me with you?
For my hand is cold and needs warmth
Where are you going?

Far beyond where the horizon lies,
where the horizon lies
And the land sinks into mellow blueness
Oh, please, take me with you

Let me skip the road with you
I can dare myself, I can dare myself
I'll put a pebble in my shoe
And watch me walk
I can walk, I can walk!

I shall call the pebble DARE
We will talk together about walking
There shall be caring
And when we both have had enough
I will take him from my shoe, singing
Meet your new road
Then I'll take your hand
Finally glad, Finally glad, that you are here
By my side, By my side.

"THE DREAM TEAM"

Although I will be the one with the "D.O." after my name, it comes only after many years of support and dedication from my "Dream Team".

Daddy, you taught me that it does no good for me to want unless I reach. Your words are alive in my heart always. I miss you very much!

Mom, you gave me the confidence to choose my own paths and the encouragement to follow them!

Donna, with you sharing my anxieties, accomplishment and disappoints is just a phone call away (since you wouldn't send me a picture I used a picture of the next best thing!)

Gaeton, you never had a doubt that I was going to be a doctor, even when I felt like giving up.

Geannine, my beautiful little girl, you make my bad days good and my good days heaven!

Annie, a true friendship like ours is rare. I can always count on you.

Mom and Dad C., I couldn't have asked for better in-laws.

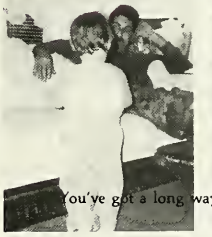
Dad, Mom, Mair, Sue, Larry, Betsy, Jennifer, Gram, Joe, and Samantha . . . I often ask myself why I am so lucky to have such a wonderful family. Maybe it's because you alone truly understand me, or perhaps it's because God knew how much I'd need you!

I'll have how many more years of school?



You've got a long way to go, Samantha, but you're off to a great start!

A Physician's Prayer: "Lord, Thou Great Physician, give skill to my hand, clear vision to my mind, kindness and sympathy to my heart. Give me singleness of purpose, strength to lift at least a part of the burden of my suffering fellowmen, and a true realization of the rare privilege that is mine."

I would like to thank my family- Through your support, guidance and inspiration you have enabled me to fulfill my dream. I am eternally grateful to you for all the encouragement, confidence, and love that you gave to me. **I LOVE YOU WITH ALL MY HEART!!!!!**

THANKS TO MY BROTHERS- Jason J. and Jason P.- The two greatest brothers a sister could be blessed with! Your vitality for life and fun cannot be overlooked!!!! **I LOVE YOU GUYS!!!!!!!!!!!!!!**

THANKS TO MICHAEL- YOU WILL ALWAYS BE MY SWEETHEART. I love you more today than yesterday, but much less than tomorrow.

A SPECIAL THANKS TO MY FATHER- For teaching me so many things about life that cannot be found in a textbook. I don't know of anyone wiser, kinder, or more forgiving.

I would like to thank God- The essential basis of my strength and motivation.

To my family and the friends who have been at my side during the past four years, I'd like to express my sincere gratitude for helping me to achieve my goal of becoming a physician, and keeping me sane in the process. A special thanks to Mom and Dad for your continued guidance and support.

To Judy, your constant love through the ups and downs keeps me going. Our journey through life is just beginning. I'm glad we'll be together for it.

Finally, to Grampie, I wish more than anything that I had been able to share my experiences with you during medical school. I miss you.

To Mom and Dad— A tremendous thank you for all of your love and support, and for helping me each step of the way in pursuing this dream. You truly are the greatest parents. I love you both.

To my family and friends— You all inspire me in different ways. Thanks for shaping me into the person that I am and for giving me reason to succeed in this journey.

To my Grandparents, especially Gramma Paar— Your memories are always with me, and Gramma, your vision and your stories can always bring a smile to my face. I hope you know how much you mean to me.

Finally, to Karen, my fiance and my future— You are my best friend, my inspiration, and the love of my life. Thanks for always believing in me. I will love you forever.

The close of one magical chapter carries with it an overwhelming sense of fulfillment a well as a clarion call to set forth anew and to begin work on a still greater scale. But befor constructing that magnum opus, I would be as appropriate as a saw without teeth were I nc to pause briefly for a few poignant reflections:

Of course, without **Mom & Dad**, all of my life's achievements would have been a flat-ou impossibility—from T-Ball games to campus tours. How two people could serve as so man things should in itself be a mathematical impossibility. It may be an oft-worn Hollywoo phrase, but it belongs here: "You're the greatest."

My brother **Tony** is bound for law school, but don't let that deceive you. In between ou collective analysis of the home teams' endeavors, the two of us have solved half the world' problems (much to Ma Bell's delight). Now, if he would only agree with me on the other half .

And then there's **my grandparents**, always gracious with their hospitality at home to g along nicely with their uncanny perspective of the world about me. Both I treasure dearly

Yet the long-awaited culmination of School World poses another challenge to the defiar camaraderie that epitomized the **"PCOM Immediate Family"** from classroom to taproom from post-games to post-session. Hopefully, there will still be opportunities to trade wis cracks and to launch hookshots—I mean, we've got a reputation to uphold.

I could ramble on and on (and you know I would), but I've gotta run, 'cause there's a reall good ballgame on . . .

SEE YA 'ROUND TOWN!

Mom - I stand here today and I give you a smile. You taught me that no matter what life throws at you, you always have your family. I love you as a mom and respect you with all my heart.

Andrea - Thanks for all of your support and the courage you instilled upon me. You will always be "Little Gooby."

Debbie - No words can express my love and admiration for you. I am what I am because of your support and belief in me. Not only are you the love of my life, but the best friend anyone could ask for.

Nanny/Pop - You both have taught me that with the advances in todays world, it always comes down to just people. I love you and thank you for all of your kindness and support.

Grandmom/Grandpop - You always told me to finish my "lessons," so I took your advice. I have taken and learned much from you both and I hope one day I can share these values with my family. I love you. Thank you.

To all my buddies - Thanks for your support and belief in me (Yeah right!).

To my new family - Your love and support has been there for a long time. Thank you for all of your hospitality and kindness. I love you and thank you dearly.

Dad - Expressions are the only way I can show you my appreciation. You once taught me a phrase, "As you go, go I." I accept this degree with you right by my side. This is for you, Dad. And now if I can promise you this, "As you go, I would be honored to follow " I love you Dad - Teammates Forever.

I humbly thank the Lord for His abundant grace, compassion and guidance in providing me the opportunity to pursue a career in medicine. He has truly bestowed His blessings on me when he provided such loving, caring and uplifting people as my family, friends and precious wife. **Mom and Dad:** I don't know quite how to say thanks in these few words for a lifetime of happiness. Everything I have has been derived through your love expressed unconditionally to me. With tears of joy and heartfelt gratitude I shout THANK YOU for your continual guidance, widsom, prayers, uplifting words and for always being there when I needed you. Your example of love is a gift immeasurable which I am eternally grateful. Simply, I LOVE YOU with all my heart.

Dave, thanks for being the best brother a guy could ever ask for in this world.

To my Family & Friends: Thank you for the support you have shown over the years. You have all touched my life in such a special way. You are very dear to me and I love you all.

Mom and Dad Stook and my New Family: Thank you for being so very loving throughout these years and enriching my life even more. I look forward to the future and in cultivating an even deeper relationship. Most of all, I thank you for so wonderfully raising the little child God gave you into the woman I so deeply love.

My Dear Wife Michelle: I thank God everyday for His blessing of placing you into my life. Your smile, uplifting words and gentle touch provide a constant wealth of happiness which warms my heart each day. I say from deep within my heart that I LOVE YOU and you are the essence of my life. I pray each day that we continue to live our lives in Christ's love and tender care.

In our country, true teams rarely exist...social barriers and personal ambitions have reduced athletes to dissolute cliques or individuals thrown together for mutual profit...yet these rugby players, with their muddled, cracked bodies...are struggling to hold to a sense of humanity that we Americans have lost and are unlikely to regain. The game may be only to move the ball forward on a dirt field, but the task can be accomplished with an unshackeled joy and the memory will be a permanent delight. The men who play on that rugby field are more alive than too many of us will ever be. The foolish emptiness we think we perceive in their existence is only our own...

Dear Friends,

Think back to our orientation. Carol Fox passing out dozens of forms. Hank being introduced to us and to the school. Then Uncle Manny firing us up in his memorable first appearance.

We have come a long way through Anatomy labs and OMT practicals, through Cardiology and urban rotations. Four years - lots of medicine and memories have joined us as the 1993 class of PCOM.

Thank you for entering my life and allowing me to be a part of yours. From the Follies to the parties, the cramming for finals to just relaxing - it's been great because we did it with mutual respect and caring for each other.

We will never be assembled together as a class again; but, I hope the friendships we have begun at PCOM will last forever!

Mom and Dad: Thank God for America. Without your big boat ride, I sure wouldn't be writing this page. It has been easier to strive for greater things when I knew you were always there to catch me if I would fall. Life is made of memories - training wheel changes, The Little Engine That Could, Willie Wanka and the Chocolate Factory, knitting my own scarf, making oatmeal cookies at age 5, Phillies games, little league, pitching in the yard, snowmen, paper route, lawn business, writing college papers in a hotel, walks, medical school, the supermarket in the basement, professional haircuts. Memories make my life . . . you make my memories - thanks.

Helen: To the sister with the total package - thank you for standing by me as I traveled through medical school. You helped me see the way. You are the only one that can light up a room wherever you go. You make life fun to live.

Tiayia: My koukla - the world's greatest Greek grandmother. Forever I will remember your love, trips to 7-11 for a sloppy, and the many reminders to lock my door.

David: -B.R. Jr.: What a childhood we had . . . B.B. gun and the bell, rowing on the river, horseshoes on the beach with your dad, shooting pool, bikes, endless weekends of fun. We have both been lucky to have had people show us how to live this life. You have and always will be my Best Friend.

Tony: You left me with so very much - teaching me what it is to LIVE and how to LIVE. You are there daily as I walk through life. Don't worry, one day we will party again.

Mo and George: Cookouts, the fruit and vegetable trucks, medical school-you both made it so fun. Mo - remember . . . in light of today's increasing risk of coronary artery disease, a little poultry never hurt anyone. George - remember . . . you get the shore house and boat, I get the mountain house . . . our kids, much fun, good life.

Dennis: -Nut, NVT; the koukla mobile, McDonald's sign, telephone booth, 'PG', roses are red violets are blue. Thanks for all the good times. You certainly define what it is to live. But remember, the race isn't over yet! Who will be standing last, that is the question!?

TJC: It is good to be the king. Put-In-Bay, gettit!? I will make it to Granville some day. The Mod reunion. Remember . . . as always, she may not know it yet, but she needs you.

Dianne: LBI weekend trips, working out, physiology/kinesiology debates, the famous chinese dinner, talks . . . thank you. Remember . . . many people are ischemic . . . don't create too many MIs. A great physical therapist you will make. Remember . . . above all, Do Good Things.

Vince: You made medical school quite an experience. David's, Carol, the stair master - how I changed my view after I met you. Thanks for the fun times. We will always be in touch.

Thanks to all my family. Mom and Dad, for all your support over the years, I truly am a lucky person (especially when you filled out those GAPFAS forms, Mom). Deena, your kindness and guidance has made me a most compassionate and caring physician. Brad, your strong will and determination has surely had an influence in making me a better person.

Mom and Dad
Thank you for making this day possible.
For never doubting my abilities
For giving me love and encouragement
For the guidance and direction
For teaching me through example, right from wrong
For all the time and energy spent-it was not wasted
On this day don't be proud of me, be proud of yourselves-
my accomplishments are yours.
Family and friends
Thank you for all your support and patience.

Marcelo
God has given me many blessings in my life; but you are truly the most precious.
In your hands I entrusted my dreams- Thank you for making them come true.

I love you,
Kelly

It is hard to believe that my dream of becoming a physician is now a reality. So many people have contributed to this, my greatest accomplishment, I cannot mention everyone because of the limited space. They know who they are, and to them I will be eternally grateful for their love and support.

My family deserves special credit in enabling me to become a physician - for without them this task would have been insurmountable . . . . MOM, one word describes you and that is "constant", you have always been with me through the good and bad times. You have sacrificed money, time and energy so that I had the best of everything. No one could have been blessed with a more loving and greater mother.

DAVID, It seems like only yesterday that we were children playing in "Anderson's Woods". We are adults now, however I doubt we'll ever lose the spirit of those precious days. You have been my "best friend", "loyal confidant", and "little brother". David, I love you and look forward to future adventures together.

LOUISE, can you imagine this all began with planaria, midnight doughnut runs to the E.R. and college level science projects for "show and tell". Your love and devotion have exceeded your role as Aunt and have matched the requirements for Mother status. I guess that makes Jonah and I brothers!

DAD, I know we haven't been able to spend much time together in the past twelve years. However, at an early age you were a fine role model, when I needed it most. For this I'll always be grateful. You engrained in me the virtues of honesty, courage and perserverance. I'll always be grateful for your contributions to my education.

GRAN and GUS, I will never care for a geriatric patient with out thinking of how I would treat you. Your generosity, devotion and love will never be forgotten. I hope and pray you will be able to make it to graduation. If not, you will be there in the deepest recesses of my heart and soul.

FAITH, You were a part of my medical education the college catalogue did not describe. No one could ask for a finer partner and girlfriend. I love you and look forward to the future with you, hand in hand and side by side.

LORD, You are the Great Physician. I pray that You make me an instrument of your peace and healing qualities, and that I may be a reflection of your love in all those lives I touch. May I never doubt your power, wisdom and purpose for my loved ones, my patients, and for myself.

It would be to have you here with me today to share in my dream. You wil live in my heart forever. I love and miss you.

To Mom: Thank you for giving me all the love and support a child could need. All those times you made me believe in myself prepared me for these long years in college and medica school. Never doubt that although you could not provide financial support, your love encouragement and guidance through the years has allowed me this opportunity today. To become a Doctor!

To Suzi: With all my love and thanks. I believed becoming a Doctor would fulfill and complete my life. I was wrong. You have overfilled my life with love, joy and happiness. You have given me everything. Words can not express what you mean to me. I have watched in awe as while you were a medical student you became my best friend, wife, a mother (with a second on the way), maid, cook and housekeeper. I'll love and cherish you forever.

Few words can express my gratitude and love for the friends, family teachers, and physicians who have made this dream a reality. First I mus say thanks to PCOM for giving me the opportunity to pursue my goal. I has truly been a privilege. I also want to thank the many physicians wh taught me that medicine is not just a profession, but a rare chance in man's life to "do good things" for others. Thanks to my family who wer always there when I needed them and who gave me the courage to alway reach for my dreams. Finally, to just say thank you would not be fair t express my appreciation and love for my wife Linda and sons Matthew an Brandon. You have made my dream worthwhile. I love you with all m heart and dedicate this page to you.

One night a man had a dream.
He dreamed he was walking along the beach with the LORD.
Across the sky flashed scenes from his life.
For each scene he noticed two sets of footprints in the sand;
one belonging to him, and the other to the LORD.

When the last scene of his life flashed before him,
he looked back at the footprints in the sand.
He noticed that many times along the path of his life
there was only one set of footprints.
He also noticed that it happened at the very lowest
and saddest times in his life.

This really bothered him and he questioned the LORD about it.
"LORD, you said that once I decided to follow you,
you'd walk with me all the way.
But I have noticed that during the most troublesome times
in my life there is only one set of footprints.
I don't understand why when I needed you most
you would leave me."

The LORD replied: "My son, My precious child,
I love you and would never leave you.
During your times of trial and suffering,
when you see only one set of footprints,
it was then that I carried you."

Success
To laugh often and much;
to win the respect of intelligent people
and affection of children;
to earn the appreciation of honest critics
and endure the betrayal of false friends;
to appreciate beauty
to find the best in others;
to leave the world a bit better,
whether by a healthy child,
a garden patch or a redeemed social condition;
to know even one life has breathed easier
because you have lived.
This is to have succeeded.

Mom and Dad thank you for your love, understanding and encouragement. I love you very much!
John and Tim you're the best, thanks for listening and helping me smile.
Nana and Pop-pop you made me feel proud of what I was doing, thanks for your love and confidence.
Nana , I wish you could be here to see me graduate, that was always my one wish. In my heart I know that you are looking down from heaven and that you will always be with me in spirit.
To those few but very special friends, I want to thank you for your support but mainly your love. I wouldn't have made it without you. You are the best! Happiness to you always!

Peter Zajac, D.O.

D.O./M.B.A. PROGRAM

P.C.O.M. and St. Joseph's University co-sponsors a joint degree program of a Master of Business and Doctor of Osteopathy. This program was created as the nation's first D.O./M.B.A. program. It was developed in response to the increasing need for business knowledge in medical practice, and to prepare physicians for a wide range of emerging careers in medical business administration. We congratulate our former classmates on their achievement.

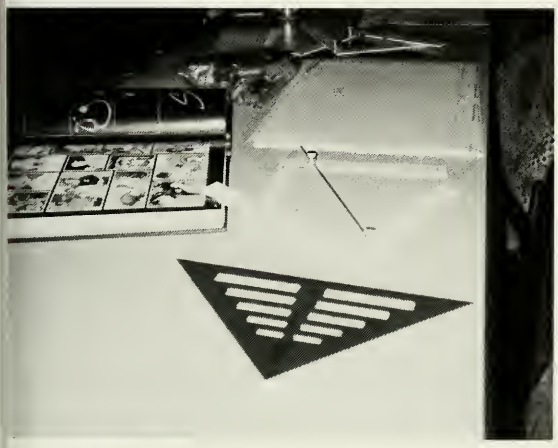
DEADLINES



Running out of time . . . . . .

Dear Fellow Classmates,

I present to you Synapsis 1993. I can't even begin to tell you how much time and effort went into this yearbook. It took my staff and I numerous hours, countless days and sleepless nights to produce this glorious book. We had one goal in mind and that was to make OUR yearbook the BEST and most unique edition ever published thus far. We hope it is to your satisfaction.

As you flip through the many pages it should bring back wonderful memories of our four years here at PCOM. As a class we studied hard and we played just as hard. We had good times and we certainly had some bad times. But through it all I think we can honestly say it was worth it. And although it seems that our four years together have come to an end, we will always have this yearbook to carry on our special memories. We may go our seperate ways, but Synapsis 1993 will keep us together always. I want to wish each of you much success and happiness wherever you may go. CONGRATULATIONS CLASS OF 1993!!

Before I end I need to thank some very special people for without them our yearbook would not have been completed in time. June Caruso - you are truly a remarkable woman. Your creativity and artistic talents has made Synapsis quite unique. Cheryl Wafford - Thanks for your dedication. Not many people would drive back from New York just to work on the yearbook. Stay sweet! Nancy Lovelace - The underclassmen should be thanking you. It is because of those 20 straight hours you spent cutting out pictures and typing up names that enabled each underclassmen to be fully represented. Thanks for caring. Lillian Theune - Thanks for making long distance phone calls and keeping after those who still didn't take their mug shots. Brian Wiboon - Thanks for taking pictures of the sports teams and activity clubs and for always taking home the leftovers. Teresa Azizkhan - thanks for helping to make a difficult task get accomplished. Attempting to snap candid pictures of faculty docs is nearly impossible!! Godwin Onyeike - thanks for stuffing 700 envelopes so that we could raise money for this yearbook. Hank and Denise in Student Affairs - thank you both for your understanding, patience, sound advice, and continued support. Phil Klein - many thanks to you for patiently working with my staff and I through these past months and helping us make all our deadlines. Lastly, I wish to thank those fellow classmates who sacrificed some of their time, even if it was only to do your own page, to come out and lend a hand with the yearbook. Your presence did not go unnoticed!!!

Sincerely,

Larissa C. Fernando

The Office of the Dean

We congratulate you upon your graduation from Philadelphia College of Osteopathic Medicine. This achievement has involved your willingness to travel a long and difficult road for the past four years. We are proud of your intelligence, your tenacity, and above all your commitment to the osteopathic profession.

You have entered a demanding professional community that will offer you great opportunities to contribute to service, research and education. We are confident in our hopes for your future - a future full of work and reward - and proud of the strength of character that you have demonstrated and will continue to demonstrate.

Together, we can make a world of difference.

At Botsford, you'll have the opportunity to help people by using what you've learned. But you'll also be able to use the latest technology while you train in your choice of 20 specialties in a challenging setting.

Botsford is known nationally as a leading osteopathic teaching hospital. Each year, over 120 interns and residents enhance the high quality care provided by our staff of more than 350 physicians.

We offer a wide range of specialty and sub-specialty programs as well as alternate and specialty track internships in OB/GYN, Internal Medicine and special emphasis in Family Practice. Our affiliation with Michigan State University College of Osteopathic Medicine gives you additional access to the latest research in diagnostic and therapeutic technology.

The continued growth of Botsford is a reflection of the expanding health needs of the community it serves. We invite you to grow with us.

At Botsford, we believe that making a difference in the world starts in our community.

Please call the Medical Education Office at **(313) 471-8224**, for information on our comprehensive benefits package and information regarding the following programs: Anesthesia, Cardiology, Emergency Medicine, Gastroenterology, Family Practice, General Surgery, Infectious Disease, Internal Medicine, Medical Diseases of the Chest, Nephrology, Neurology, Obstetrics/Gynecology, Ophthalmology, Orthopedic Surgery, Otorhinolaryngology/Orofacial Plastic Surgery, Pathology, Peripheral Vascular Surgery, Podiatry, Radiology, Urologic Surgery.

We're Opening New Doors For You.

Opportunity is knocking at Metro Health Center. Metro has the unique distinction of offering personalized one-to-one healthcare with a 150-bed, state of-the-art facility, right in the heart of Erie, Pennsylvania.

Imagine living in a community where you can leave downtown at 5 p.m. and be sitting on your sailboat in 10 minutes. The fall foliage is beautiful and the challenging winter skiing is minutes away.

Equally attractive is the cost of living. Erie boasts a low cost of living where you can afford to put down your roots and grow.

We invite you to visit us and talk to our Residents, Interns, Clinical Clerks and other healthcare employees to further explore the many amenities of Metro Health Center and the Erie community.

Among the programs offered at Metro Health Center:

- Residencies - general practice (6 positions) and otorhinolaryngology.
- Internships - 8 funded positions in a progressive teaching program with a competitive benefit package.
- Clinical Clerkships in surgery, family practice, internal medicine, OB-Gyn, radiology, ER, and the major subspecialties.
